

# Individual Reflection

**What do I want to learn or understand better? Consider e.g., teamwork, Scrum, agile processes, technologies etc.?**

How to deliver a completed product to the PO and to present it.

**What is my contribution towards the team's deliveries? How can I help my team do better next sprint?**

I redesigned the navbar to display all chapters and included a scroll bar.

I also designed the chapter page to look like the homepage.

**Changes/improvements from last week's reflection?**

Tried organaizing files into folders. Mostly this has been with the styling code.

This week we worked I a team of three but where I also worked on a task alone.
